Per Pele—402 bags sugar.

Per Mile Morris—200 bags rice.

Per Kawailani—800 bags rice.

Per Sarah and Eliza—150 bags rice.

WHARF AND WAVE.

DIAMOND HEAD, July 17, 10 P.M.: Weather, cloudy; wind, fresh east.

The British bark Velocity, Captain Martin, is due this week from Hongkong. She is about forty-two days out.

The schooner Aloha will finish unloading her cargo tomorrow. She will load sugar for H. Hackfeld & Co. after the Planter.

The barkentine Planter leaves today for San Francisco.

The tern Glendale goes on the Marine Railway this morning after the steamer Kinau is lowered.

The schooner W. H. Talbot received sugar from the steamer Pele yesterday.

The steamer James Makee will go up on the Marine Railway the latter part of this week, and will remain there for about ten days.

The Canadian Pacific steamer Warrimoo is due here on Friday next from Vancouver, B. C.

A cargo steamer of a new model has recently been built by Foxford & Sons, at Sunderland, England. Cut across the middle, the vessel is shaped like a bulb, the sides curving over on to the weather deck without gunwales. A "working deck," one-third the width of the "weather deck," is raised above the latter about five feet. One advantage of this plan is greater economy in space for frames and stays, and hence more room for stowage. Another is that when the vessel ships a heavy sea the water remains for an instant on the upper side of the partially careened craft, and by its weight helps to right her, instead of washing across the deck, lodging against the bulwarks, and tending to carry her over further.—Ex.

Unless something unforeseen happens Claus Spreckels will leave for San Francisco tomorrow on the Australia.

Jas. F. Morgan will sell property at the foot of Beretania street on Saturday. The property brings in a rental of \$400 per annum.

Dick Taylor was about town yesterday soliciting orders for his photographs of Kalalau valley. He reports a good demand for the pictures.

B. F. Ehlers & Co. offer the latest novelties in their large line of goods. Mrs. Renner will have charge of the millinery department.

Mr. George H. Paris announces he has disposed of six of his newly imported wheels, and that after today no further special rates will be allowed. The "Columbus" go like hot cakes.
